## DESIGN GUIDE

**Effective July 2014**

Princeton

## Overview

Princeton is a freestanding and fully modular desking system offering maximum flexibility; ease of installation and facilitates simple reconfigurations. The overlapping worksurface design allows the footprint to adapt to smaller spaces by just a few inches. Every element, from the mix of materials and finishes to open storage pieces, floating modesties and overlapping surfaces, has been designed to provide visual appeal and intelligent function.

All Princeton components have been tested to comply with BIFMA table / desk and mechanical standards. Princeton has been tested using stringent environmental chamber methods and found to meet Greenguard's Indoor Air Quality standards. Greenguard certified products are low emitting and contribute minimal levels of pollutants to indoor environments [www.greenguard.org](http://www.greenguard.org). Princeton is BIFMA Level 3 certified.

## Construction Specifications

### WORKSURFACES

- Constructed of 45 lbs density particleboard core with high performance thermally fused laminate
- High pressure laminate tops are also available in all Princeton laminate finishes at an extended lead time. Please see model # for pricing and availability.
- Worksurfaces are 1" thick with 3mm thick matching edge detail on all sides
- Worksurfaces with metal legs which have a span of 54" and over include metal support channel(s)
  - 24" and 30" deep - 1 support channel
  - 36" deep - 2 support channels

### GENERAL CONSTRUCTION

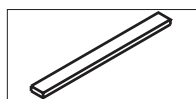

- Laminate end panel and metal leg products are **not intended** to be combined for the most visually compatible design. They are, however, interchangeable if required.
- Components are constructed of 45 lbs density particleboard core with high performance thermally fused laminate
- End panels are 1.5" thick on laminate end panel desks and credenzas. Cabinet end panels are 11/16" thick.
- All components other than worksurfaces have 1mm thick matching edge detail on all sides
- Leveling glides are standard on all floor units with a minimum of 1" adjustability
- 1" x 2" metal frame legs finished in Tungsten (TUN) for desks and returns
- 1" x 2.5" metal frame legs finished in Tungsten (TUN) for freestanding tables
- Credenzas come standard with file bars for front-to-back letter, legal and A4 filing capability
- Laminate shelves are 11/16" thick and edged on all 4 sides. Optional tempered glass shelves are 6mm thick with satin-etched finish on one side.
- Metal plates and wood screws are provided for connection between units
- Counterweights are standard on all pedestals, lateral files, credenzas and cabinets
- Mobile pedestals and mobile lateral files come standard with front locking casters
- Stool and rolling table come standard with non-locking casters
- Handles and pulls in satin anodized finish are standard on all credenza, pedestal drawers and cabinet doors
- Pull-out equipment shelves are available on select credenzas
- Grommets and power blocks are available to accommodate power/data needs

### LOCKS

- Standard on all credenzas, storage cabinets, lateral files, pedestals and benches
- Lock on all credenzas, cabinets and pedestals is always positioned on the bottom file drawer
- Lock secures both bottom and drawer above that with the lock
- Storage cabinets and pedestals with box, box, file combination, only file drawer and lower box drawer are locking
- Components can be ordered without locks at no additional charge. Specify NL

### PULLS

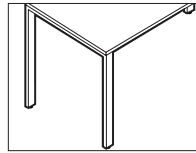

- 9.76" long
- Satin anodized finish only

## Construction Specifications

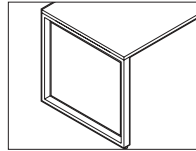

### TABLE LEGS

- 1" X 2.5" metal frame (open 'U' style)
- Finished in Tungsten (TUN) only

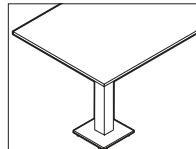

### METAL LEG

- 1" X 2" open metal frame (closed 'O' style)
- Finished in Tungsten (TUN) only
- Support for select desks and returns

### MONOPOST

- Standard support for Conference tops
- 4" square post with 10" square base
- Finished in Tungsten (TUN) only

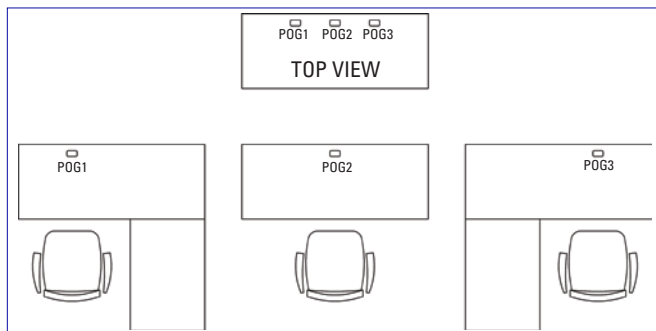

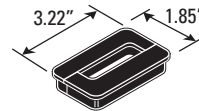

### LAMINATE MODESTY PANELS

- 10" high. Standard on all desks with laminate end panels, returns with laminate end panels and bridges for laminate end panel desks
- Modesty is flush on Freestanding Returns with laminate end panels
- Modesty is recessed 4" deep on 24"d desks with laminate end panels, 5" deep on 30"d desks with laminate end panels and 6" deep on 36"d desks with laminate end panels
- Modesty is recessed 4" deep on 24"d, 5" deep on 30"d and 6" deep on 36"d flush and overlapping returns with laminate end panels
- Modesty is recessed 4" d on 24"d and 5" d on 30"d flush and overlapping bridges with laminate end panels
- Desks and returns feature modesty panel that is flush with end panel
- Bottom of wood modesty panel is 18" from floor

### GROMMETS

- Worksurface grommet hole dimensions are 3.22" wide by 1.85" deep
- One grommet in satin anodized finish is standard on many components
- Standard grommet position for desks, returns, bridges and conference tops is POG2
- Grommet location is 2" from edge to cut out on desks/returns/bridges and 2.5" from edge to cut out on credenzas
- Additional grommets are available in other standard worksurface locations (left, center or right) on select components; refer to price list for more information
- Grommets may be placed at non-standard locations, see price list for upcharge
- A drawing must be supplied with vertical and horizontal dimensions to the center of the cut-out (as in drawing below)
- Components that come standard with grommet may be ordered without a grommet, upcharge applies

### WIRE MANAGEMENT PASS-THROUGH

- Laminate modesty panels have a 3.43" wide by 2" high pass-through for cables/cords, excluding 27"h and 29"h freestanding returns
- Credenzas with open lower shelf, the center gable has a 4" x 4" cut out allowing cables to pass through and exit the bottom of the unit to floor mounted power/data
- 2" deep x 2" high extruded wire management channel in several lengths is available for management of cables below the worksurface
- Channel readily flexes to receive and then secure electrical and data wires
- Quickly attaches with double-sided tape (included)

## Construction Specifications

### CREENZA WITH PULL-OUT EQUIPMENT SHELF

- Select credenzas have the option of a pull-out equipment shelf
- Shelf is rated for up to 80 lbs.

### GLASS

- All glass components (desktop panels, sliding glass doors, adjustable shelves) are tempered 6mm thick glass with satin etched finish on one side

### SPECIAL SIZES

- Custom widths, depths and heights are available, but require a custom quote. Please contact Customer Care for more information.
- Custom orders must indicate the “custom quote number” and list price as provided by Customer Care
- Changes to a custom quote are not permissible. Any revisions will necessitate a new quotation.

## Planning Guidelines

To maintain design intent and most visually compatible design, ensure specifying **laminated end panel** products with other laminated end panel products, and likewise **metal leg** products with metal leg products. Components are interchangeable if required, however it is not recommended you mix laminated end panel and metal leg products.

### Standard Finishes

Top:	Base:	Door, Drawer and Cabinet Fronts
ACJ Absolute Acajou	ACJ Absolute Acajou	ACJ Absolute Acajou
ASN Asian Night	ASN Asian Night	ASN Asian Night
AWC Avant Cherry	AWC Avant Cherry	AWC Avant Cherry
AWH Avant Honey	AWH Avant Honey	AWH Avant Honey
DES Dark Espresso	DES Dark Espresso	DES Dark Espresso
HGT Hayden Grey	HGT Hayden Grey	HGT Hayden Grey
SKC Shaker Cherry	SKC Shaker Cherry	SKC Shaker Cherry
TMA Tiger Mahogany	TMA Tiger Mahogany	TMA Tiger Mahogany
TMP Tiger Maple	TMP Tiger Maple	TMP Tiger Maple
TWL Tiger Walnut	TWL Tiger Walnut	TWL Tiger Walnut
WCR Winter Cherry	WCR Winter Cherry	WCR Winter Cherry
WHC White Chocolate	WHC White Chocolate	WHC White Chocolate
WHT White	WHT White	WHT White

Please specify a finish code for the **top**, **base** and **door/ drawer/cabinet front individually**. Please refer to the **Required Specifications** indicated on each page of the Princeton price book.

- **Required finish option sequence:** Top finish is always in the 1st position, Base finish is always in the 2nd position and Door/Drawer/Cabinet Front is always in the 3rd position.

Example: PN3072DK WHC ACJ PN2960CPL WHC ACJ WHC  
 [model #] [top] [base] [model #] [top] [base] [drawer fronts]

### Monopost Finishes

4" square monopost is standard in Tungsten (TUN) finish

### Metal Frame Desk Legs

1" x 2" metal frame legs are standard in Tungsten (TUN) finish

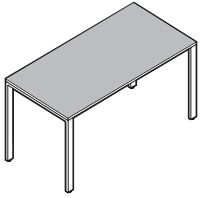

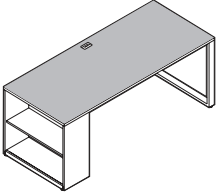

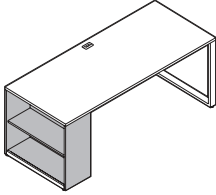

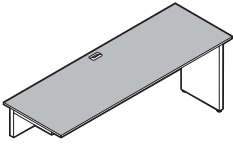

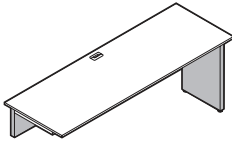

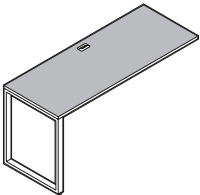

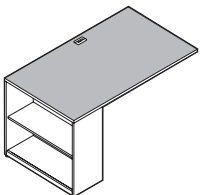

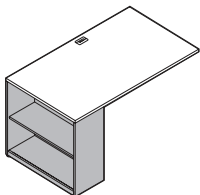

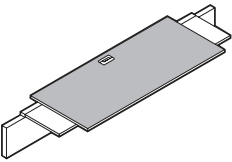

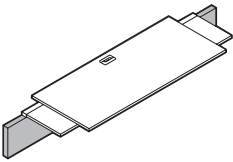

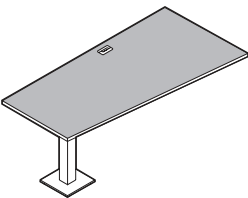

### Planters

Planter pots are standard in white. Available in Black (BK) at no upcharge. **MUST SPECIFY** at time of order placement.

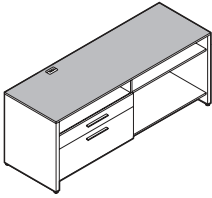

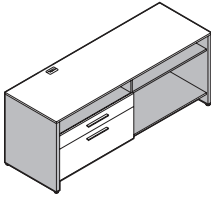

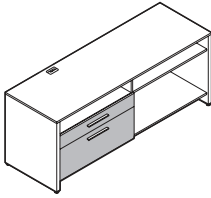

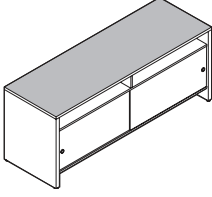

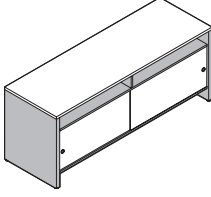

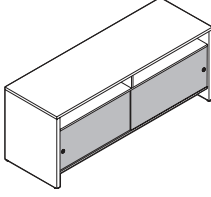

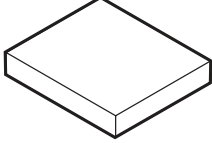

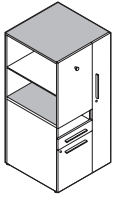

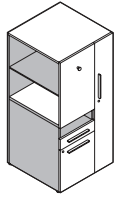

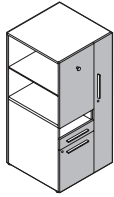

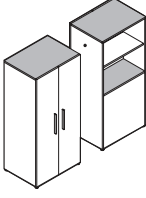

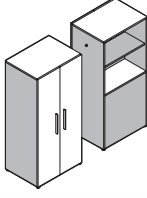

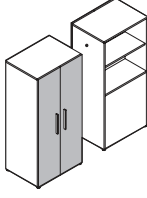

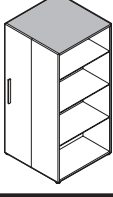

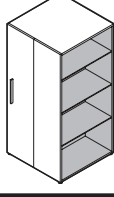

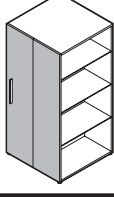

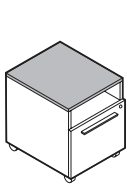

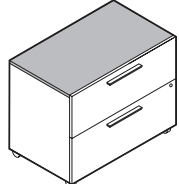

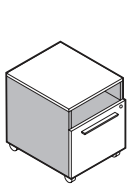

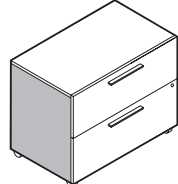

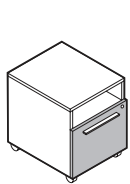

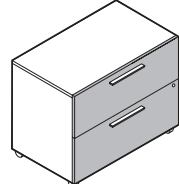

### Metal Frame Table Legs

1" x 2.5" metal frame legs are standard in Tungsten (TUN) finish

Princeton Credenzas - 29"H

- Finish option specified for each zone of the credenza separately: Top | Base | Drawer and/or laminate door fronts
- Units with file drawers include file bars to accommodate front to back letter, legal or A4 filing. Lock is positioned on bottom file drawers; secures both drawers.
- Credenzas with sliding doors do not lock
- Credenzas with pull-out equipment shelf | shelf is rated for up to 80 lbs.
- **Connection with flush or overlapping surfaces to credenza is only possible over units open on one side with either fixed lower shelf or pull-out equipment shelf**
- Units open on one side (fixed or pull-out shelf) allow cables and cords to pass through back of lower shelf to floor monument
- Units with one open shelf/box/file drawer | open shelf interior height is fixed at 5.7"
