

# E-Lock

Global is pleased to introduce E-Lock. A new keyless entry system designed to secure access for single or multiple users. Available as an option on **Blocks** and our **1200 series**, this E-Lock is a safe choice.

The Global E-Lock is individually programmed by the user. The lock's front panel contains a keypad (comprising of ten numerical keys and two control keys), LCD display and Battery compartment. Operating the lock requires a 4 digit ACCESS CODE to be entered using the numerical keypad.

## NEW | PRODUCT

### FEATURES:

- Number keypad - set your own access code
- On-line access code (PIN #) registration & retrieval
- Multiple users – up to seven unique USER codes can be stored by the user with MASTER access privilege

# E-Lock

Global E-Lock Website: [www.globalelockfiles.com](http://www.globalelockfiles.com)

The screenshot displays the Global E-LOCK website interface. At the top left is the GLOBAL logo and the text 'E-LOCK FILING & STORAGE SECURITY SYSTEM'. To the right is a keypad with buttons for digits 1-5, 6-0, and 'OPEN' and 'LOCK'. Below the keypad are four main sections: 'Account Login' with fields for Email Address and Password and a 'Login' button; 'Forgot Password' with an Email Address field and a 'Get Password' button; 'Not Registered?' with a 'Create Account' button; and 'Service and Support' with a 'Documents' button.

## OPERATING INSTRUCTIONS:

All additional information listed below are located at: [www.globalelockfiles.com](http://www.globalelockfiles.com).

- Overview & Specifications
- Setup & Options
- MASTER Menu Flowchart
- Programming MASTER Access Code
- Programming USER Access Codes
- Missing Access Code - Remote Access Procedure
- Batteries
- User Manual
- Troubleshooting
- Deleting All Access Codes
- Deleting and Reading Individual USER Codes
- Display ID Number

The Global E-Lock is a electronic lock specifically designed for Filing and Storage Cabinets. Once the cabinet has been registered with Global online at [www.globalelockfiles.com](http://www.globalelockfiles.com) the concern of forgetting the entry codes or losing keys is eliminated.

## ADDITIONAL INFORMATION:

- Personalized access code (Pin #) set by user
- On-line access code retrieval
- Ability to hold multiple entry PIN #s (master access codes)
- Lock powered by four AA-type batteries, which are easily access through the front panel
- Average, single set of batteries can last up to 2 years providing 5000 open/lock cycles. Note: These figures may vary depending on the cabinet's configuration, usage frequency and type of battery used
- Battery installation and removal is accessed through the external battery compartment
- Access codes remain in memory even if the battery were to lose charge

For more information on E-Lock, refer to our Global website.
