

Scale 1, 2, 3™

Scale 1, 2, 3™

Scale 1, 2, 3 is a chair for everybody.

The Scale 1,2,3 series was designed to accommodate as many sizes of people as possible. Ergonomic seating solutions are not just about dimensions, but if some chair features are not the right size, users may never get the proper support they need as they change postures.

In addition to the scaled proportions of this series, each chair has multiple adjustment features that allow a user to customize the fit of the chair for their own body and preferred postures.

3021-3: Scale 1 Multi-Tilter

3022-3: Scale 2 Multi-Tilter

3023-3: Scale 3 Multi-Tilter

Scale 1

Designed to accommodate smaller individuals, Scale 1 measurements have been adjusted to a smaller scale including smaller seat and back cushions, lower seat height and arm height ranges and arms that adjust closer together.

Scale 2

Designed to fit most people, Scale 2 dimensions and adjustment ranges make this the seating solution for many people.

Scale 3

Designed to be more generous in its proportions to accommodate larger people, Scale 3 has larger seat and back cushions, higher seat height and arm height ranges, and more space between the arms.

Scale 1 - 16.6 inches wide

Scale 2 - 18.8 inches wide

Scale 3 - 20 inches wide

Above: Scale 1,2,3 shown in Styx, Indigo (ST13) , all with Black Bases.

Cover: 3022-3 Scale 2 Multi-Tilter shown in Momentum, Epic - Azure (EC85). 3023-3 Scale 3 Multi-Tilter shown in Mobern, Legacy - White (L600).

Scale 1, 2, 3™

Scale 1, 2, 3 functional features

Infinite Angle Chair Tilt-lock

Allows user to lock the tilting action of the chair in any position throughout the tilt range or leave the tilt action in free float. Accommodates user's preferred working postures and encourages comfortable and supportive working positions.

Pneumatic Seat Height Adjustment

Scale 1, 2 and 3 have different seat height adjustment ranges to accommodate people with different lower leg lengths. Allows user to adjust seat height so that their feet are flat on the floor without pressure under their thighs. Helps encourage blood flow.

Forward Seat Angle Adjustment / Lock

Allows user to tilt the seat forward changing the angle of their thighs in relation to the floor. Helps keep the body angle open thus reducing disc pressure during forward leaning tasks.

Back Angle Adjustment

Allows user to adjust the angle of the back in relation to their thighs for full supportive back contact. Helps reduce disc pressure and relaxes back muscles.

Dual Wheel Casters

Dual Wheel carpet casters are standard. Upon request, dual wheel casters for hard flooring can be provided at additional cost.

Hundreds of fabric and color choices many of which are intended for heavy duty commercial applications.

Scale Lockable Armcap

Comes with the ultimate adjustable G5 and G6 arms. Movement in five directions allows easy adjustment for most users and their tasks.

Back/Lumbar Height Adjustment

Allows user to raise or lower backrest to position the lumbar support in the small of their back for optimum comfort and support. Reduces likelihood of back pain.

Adjustable Tilt Tension

Allows user to increase or decrease tilt tension to match their body weight so they can tilt freely in their chair. Avoids heavy pushing thus reducing muscle fatigue.

Arched Spider Base

Reflects the curved shape of the Scale series. Made from extremely durable fiberglass impregnated nylon and will provide many, many years of trouble free service.

Width adjustable arms can accommodate a wide range of users and working styles. Armcaps also slide over top of seat, narrowing space between armcaps.

Height adjustable arms feature a generously proportioned and comfortable urethane armcaps. Armcaps also slide forward and rearward.

Sliding seat depth is adjustable to match user's leg length and provides additional comfort.

Armcaps also articulate inwards and outwards by 15 degrees. The sliding and depth adjustment movements are activated by a push button embedded in the armcap for easy access.

Scale 1, 2, 3™

DESCRIPTION

DIMENSIONS			SEAT HEIGHT
W	D	H	IN
IN	IN	IN	mm

3021-3 Scale 1: Multi-tilter

Narrow seat width, shallow seat depth. Special height reduced 4" pneumatic lift standard with sliding seat depth adjustment (MD). Seat and back tilt simultaneously at the same ratio and can be locked in an infinite number of positions. Independent back angle adjustment and forward seat tilt adjustments. Back/lumbar height adjustment. (G6) low rise ultimate adjustable arms with soft touch self-skinned urethane armcaps. Waterfall seat front.

25.5	24.5	38	14.5-18.5
648	622	965	368-470

3022-3 Scale 2: Multi-tilter

Standard seat width and seat depth. 4" pneumatic lift standard with sliding seat depth adjustment (MD). Seat and back tilt simultaneously at the same ratio and can be locked in an infinite number of positions. Independent back angle adjustment and forward seat tilt adjustments. Back/lumbar height adjustment. (G6) low rise ultimate adjustable arms with soft touch self-skinned urethane armcaps. Waterfall seat front.

26	25	41	15.5-19.5
660	635	1041	394-495

3023-3 Scale 3: Multi-tilter

Generous seat width and seat depth. 5" pneumatic lift standard with sliding seat depth adjustment (MD). Seat and back tilt simultaneously at the same ratio and can be locked in an infinite number of positions. Independent back angle adjustment and forward seat tilt adjustments. Back/lumbar height adjustment. (G5) low rise ultimate adjustable arms with soft touch self-skinned urethane armcaps. Waterfall seat front.
